INGERSOLL & PERKINS.

IOLA, ALLEN COUNTY, KANSAS. H. A. PERKINS, Local Editor.

SATURDAY, APRIL 20, 1878.

other papers have been off on a hysterical fit because Gov. Anthony sent a any disturbance that might arise bethorities. The Holton Recorder hits the it does seem as if some effort should be Times a gentle rap over the knuckles, as

The Leavenworth Times severely ridiquell the railroad riots at Topeka and along the line of the A. T. & S. F. railroad. The same paper commended and endorsed a self constituted posse, which would by most people be called a mob, that came up to Jackson county last all to quell a riot on the Kansas Central. One can hardly escape the conclusion that if it had not been Gov. Anthony that sent the troops to Topeka the Times would have been consistent enough to have endorsed the action.

TORNADO IN LYON & CHASE COUNTIES.

The rain storm that visited this section last Saturday evening, was a veritable tornado in the central part of the State. From the Emporia News' extra we learn the following particulars in that section. It says:

The tornado first attracted attention here about 4:30 p. m., when general ap-prehension was excited by the appearance of the sky, especially in the southwest, where a gigantic, greenish colored cloud massed up, swelling and writhing, about one-eighteenth of a second. and steadily increasing in bulk and apparent solidity until it looked like an mense avalanche ready to overwhelm the earth beneath. To the east and north of this terrible cloud the sky was comparatively clear, the clouds there izon, a continuous volume of cloud which entered into and was absorbed by the growing mass in the southwest, until it possible.— Topeka Commonwealth. med as if everything in the sky above us was being hurled toward and sucked into that gloomy monster. This impressive atmospherical display went on for about fifteen minutes, when a tremendous though distant roaring began to be heard, approaching nearer every mo-ment, and a heavy dash of wind and rain return of same amply rewarded. came from the south. The storm had reached us, the rain shutting out further view of the sky. This first wind and rain almost instantly swung round and came from the cast, and lasted about three minutes, when a perfect lull of about two minutes ensued. The lull was sud-denly broken by a blast of wind, rain complexion, the beautiful form, the and very heavy hail from the northwest cheerfulness and elasticity of spirits that First Class Hardware Store and north. This was the storm, in all good health always imparts. Parker's its strength, and it raged with terrific Ginger Tonic will restore these feminine fury for a full half hour before it abated attributes to thousands whose shattered the least, and then kept up a very heavy constitutions are due to functional derain for another half hour, the latter rangements. It radically cures dyspep-

jury—while to those whose houses were safely establishes regularity of the female blown to pieces, exposing them to the functions. It soothes the nerves, imfull force of the raging elements, the parts ease and strength to mothers themexperience of that hour can never be selves, and through the milk to their forgotten. The rain was the heaviest our oldest settlers have known—coming down like a cataract, and flooding the ground inches deep in a few minutes. It penetrated roofs and joints heretofore in curing bowel disorders and pains in curing bowel disorders and pains in proof in all storms, and as the heavy hail adults and teething children. It is pleas-dashed in windows to the north, the ant in taste, can never do any harm, and water deluged rooms in a few minutes. The hailstones were immense in size, and the wind hurled them with tremendous force—most all glass in northern windows, unprotected by blinds being shat-

Many of the hailstones that fell south of the Cottonwood, where the tornado was more severe than in the city, are ed every Friday morning at 11 o'clock. said to have been as large as goose eggs, knocking holes through shingles and siding large enough to put one's fist through. The sufferings of the numer-ous families whose houses were so suddenly blown to pieces, leaving their in-mates, men, women and children entirely unprotected from the fearful pelting of this enormous hail as well as the flood of water and the force of wind that threw them from their feet to the sodded earth, can be imagined when we remember that this storm kept up its full fury for more than half an hour. The houses destroyed were generally lifted up into the air, carried a number of feet and then dashed roof or side first to the ground, shattering them entirely to pieces, scattering timbers and boards for hundreds of feet, and in some cases for more than half a mile, and of course destroying all the furniture and other

property within them.
On Phenis and Dry creeks, and along the south bank of the Cottonwood between these creeks, very large trees were torn and twisted to pieces, and the prairie is covered with fragments of houses rie is covered with fragments of houses and fences. The gale was simply terrible, pothing seemed capable of withstanding its awful power, and the only wonder is that so faw people were killed by the falling of their dwellings, or that those who were exposed to the hail were not beaten senseless to the earth.

How women and children lived, as many did, through the fearful hour with nothing to shield them from the hail is unaccountable. Two children were, in fact, killed in this way.

The path of the tornado, where it was strong enough to destroy houses was not very wide. It began, so far as we now know, in Chase gounty, and then appears

very wide. It began, so far as we now know, in Chase county, and then appears to have lifted in the air, and struck the earth again at Jacobs Greek, in this county, and kept on going east until it reached Mr. Ross' house, about three miles southeast of Emporis. It then again rose from the earth, and may have come down again or may not, at some again rose from the earth, and may have some down again or may not, at some further point east. The width of the track on which buildings were destroyed is about six miles, reaching from the limits of Emporis to about storm was more extensive than this-but not in its destructive power.

Beports from all parts of Shawnee county indicate that the wheat harvest will commence a week earlier than usual.—Commonwealth.

THINK OF IT.

The County Commissioners of Douglas county have called a delegate convention of the people of that county to be held at Lawrence on the 26th inst., for the Board of Commissioners as to what amount they shall be authorized to offer as a companies on the railroad bond indebtedness of Douglas county. Each school district is requested to send one delegate and one alternate, Baldwin City and Eudora two delegates each, and each ward in the city of Lawrence six delegates.

It is our impression that Allen county is the only one on the line of the L. L. & G. that has not in some manner compro nised its railroad bonds in whole or in part. Other counties are buying in their bonds at from 50 to 75 cents on the dollar and there is no good reason why company of militia to Emporia to quell we in this county should pay more than tween the rioters and the railroad au- quently been spoken of about town and made to do at least as well as other counties around us. Talk it up and let some understanding be arrived at by the time the the Commissioners meet again,

Salina is talking of a daily newspaper.
